TROUBLESHOOTING

- **Some terminal music players are without automatic switching play function. In this case, a 'pop' noise may be heard between songs.**
- **If you cannot wireless connect to your mobile device. Try removing the Speaker from your mobile device's saved devices and re-connect as instructed above.**
- **The sound performance may also be affected when there is a weak connection between the mobile device and the speaker. To improve connection, bring the mobile device closer to the speaker or remove any obstacles between the two devices.**
- **The sound performance may also be affected if the battery power level is low on the Speaker. Please make sure the speaker is fully charged to improve this issue.**

NOTE

- Charge the speaker fully before first use.
- The charging time depends on the existing charged levels of the battery and the specifications of the USB adaptor.
- The LED indicator turns off automatically (during charging) when the battery is fully charged.
- The speaker's usage time depends on charge in the battery, mode, volume level, etc.

CHARGING GUIDELINES

- Use only 10W adapters for charging your Soundbar.
- Caution against using high-power mobile adapters (beyond 10W), as this may lead to charger faults.
- Using adapters with higher power ratings can result in malfunctions and reduce the lifespan of device and your chargers.
- Users can contact customer support for any further assistance or clarification on concerns related to charging and power adapters.
